

Vincent Stewart Bio:

*Vincent Stewart, Georgia Power (GPC) Distributed Generation Engineering Supervisor, leads a team of engineers responsible for the statewide development of renewable energy resources on the GPC Distribution grid, procured mainly through Request for Proposal (RFP) solicitations. His team is also responsible for all distributed energy resource (DER) policy, engineering, and technical support of all Distributed Generation, Qualifying Facilities (QF), and Company-owned DER projects. With over nine years of experience in the utility industry at GPC, Vincent has held various roles in both distribution and DER engineering. He holds a bachelor's degree in Mathematics from Fort Valley State University and a bachelor's degree in Electrical Engineering from the University of Arkansas.*
