

Susan L. Thomas, AICP

Vice President; Edwards-Pitman Environmental, Inc.

Susan Thomas is a Vice President and manages operations for Edwards-Pitman Environmental - a firm with over 70 environmental professionals that was founded in 1994. Her leadership has helped the firm become an industry-leading environmental consulting firm serving the Georgia, Florida, and South Carolina transportation market. Susan has been integral in leading the firm's transition to new ownership by parent company, Braun Intertec Corporation.

Susan also serves as the Project Manager for a 5-year Regional Environmental Services IDIQ contract for the GDOT Office of Environmental Services.

Susan received her Bachelors of Science degree in Environmental Planning and Design from Rutgers University and her Masters of City Planning degree from the Georgia Institute of Technology. She is a member of the American Institute of Certified Planners (AICP) and is active in the Georgia Partnership of Transportation Quality.
