

Kimberly A. King

Equal Employment Opportunity Director
Georgia Department of Transportation

Since joining the department in December 2012, Kimberly has worked hard to brand the EEO division as a professional, knowledgeable, and responsive unit to the Agency. Tasked with oversight for all aspects of the Agency's civil rights function, it has been an important part of Kimberly's mission to ensure that EEO and civil rights considerations maintain a "seat at the table" in terms of the overall Agency function.

Kimberly and her team ensure that their customer service to both internal and external customers as well as their understanding of the EEO function relative to the Programs administered by the division are clearly and effectively communicated whenever requested.
