

Michael Planer, P.E., S.E.

Principal | President

PES Structural Engineers

A native Atlantan, Michael Planer is a Professional Engineer and graduate of the Georgia Institute of Technology (Georgia Tech) with over 35 years of experience in structural engineering design and consulting. He serves as the President of PES Structural Engineers and is responsible for the overall operations of the firm, ensuring that each project is staffed with the best professionals for the job.

Throughout his career, he has worked on just about every type of project out there and his expertise includes the design of structural systems requiring steel, masonry, timber, prestressed concrete, and reinforced concrete members.

In addition to his design experience, actively involved with ACEC Georgia (Past Chair); the Structural Engineers Association of Georgia (Past President), and the Council of American Structural Engineers.
